Timber

Australian Hardwood OneWood

Timber Warmth with Aluminium Strength

TimberImage

Achieve the beauty and natural warmth of timber with the durability and ease of aluminium using TimberImage™, our wood-grain aluminium finish.

Using an advanced five-step sublimation process, TimberImage replicates an authentic wood grain appearance, with a level of depth and realism that sets it apart from standard wood-look finishes. Available across a range of GX products, it allows for a consistent, cohesive finish across your project.

Benefits of TimberImage

- 20-year warranty
- Infinitely recyclable, does not promote deforestation
- 50% more durable than powder-coat
- Higher durability than composite
- Non-combustible, zero fumes or sparks makes it Ideal for bush fire-prone areas
- Will not warp, rot, splinter or crack
- Termite proof
- Will never need repainting
- Low maintenance, easy to clean

Eco-Friendly Timber Alternative

Onewood

A revolutionary timber innovation made from fast-growing, sustainable plantations, Onewood is a reconstituted timber developed to reduce deforestation.

We use Onewood as a more sustainable and low-maintenance timber product option for all our ranges. It seamlessly blends in with the nature and environment as it preserves the authentic aesthetics and tactile qualities of natural wood. While Onewood has achieved Durability Class 1 under the EN 113-2 and EN 350 Standards, we believe it has properties the same as or if not better than tropical hardwood.

Benefits of Onewood

- 10-year warranty
- Eco-friendly
- Gun barrel straight
- Resistant to changes in size and shape
- BAL 29 Bush fire rating
- Ability to be stained to required finish
- Reusable and recyclable
- Highly termite and water resistant
- No tannin bleed

Art that won't fade, peel or chip

Decorative Art Panels

Turn infrastructure into art with our optional decorative panels. Printed using a specialised high-resolution process Enduralox[®], the image is embedded into the pores of anodised aluminium - delivering a finish that outlasts any film or surface coating, even in the harshest public environments.

Available on the Akuna Drinking Fountain and Charge N Chill units, panels support custom artwork, graphics, text and branding, enabling way-finding, identity and storytelling to be integrated into public infrastructure.

Benefits of Enduralox

- Won't fade, peel, or chip
- Resists graffiti and harsh weather exposure
- Maintains visual clarity in coastal and high-use environments
- Requires minimal maintenance
- Uses a 100% recyclable aluminium substrate
- Supports artwork, graphics, text and logos
- Image resolution up to 2800 dpi
- UV, weather and abrasion resistant

Semi-custom

Combine Colours

We believe outdoor spaces should be as unique as the communities they serve. Semi-customisation gives you the freedom to apply different colours across individual elements of each product - creating spaces that reflect local identity and celebrate cultural, historical, or environmental significance.

By moving beyond a one-size-fits-all approach to park furniture and facilities, this offers a practical pathway to achieving design distinction and tailored functionality, without the cost of fully bespoke solutions.

Apply colour across individual elements

- Individual slats
- End caps
- Frames
- Body panels
- Roof panels
- Laser cut designs
